INSECTICIDE GROUP: 3. INSECTICIDE SUBGROUP: 18.

K-Othrine® SC25 is a suspension concentrate containing deltamethrin (as an aqueous solution in water) with broad-spectrum sustained residual insecticidal activity on surfaces.

Target pests: **Crawling insects** including black ants, bed-bugs, fleas, earwigs, carpet beetles, cockroaches and booklice. It will also control spiders and woodlice. **Flying insects**, when at rest including, flies and mosquitoes. **Not for use on clothing or bedding.**

Indoors: Domestic: private housing; **Public Buildings:** commercial and industrial, offices, hospitals, hotels, public baths, municipal buildings, churches, halls, cinemas, etc.; **In continuously occupied areas** such as hospital wards, residential/nursing homes and prisons **as a band/spot or crack and crevice treatment only;** **Food Handling:** food storage, processing preparation premise including food retailers, restaurants, commercial kitchens, warehouses, slaughterhouses, etc. **Outdoors:** Product may also be applied to the outside surface of domestic premises and public buildings but only as perimeter treatment.

Instructions for use: This product is an insecticide. As with other insecticides operators should take appropriate precautions when working with the spray and when handling the concentrate. Do not apply to unprotected electrical equipment or to the moving parts of any machinery. Keep away from sources of ignition. No smoking. Not for use on clothing, bedding or mattresses in cots where infants sleep. If delicate fabrics or materials which may be damaged by water require treatment, test the spray on a small inconspicuous area first. For further information, please refer to the leaflet.
